Calculations and Definitions

Collected Balance Required: Earnings Credit Based Service Charges OR Total Charge ÷ Earnings Credit Rate ÷ (1-Reserve Adjustment Rate) ÷ Actual Days in Month × Actual Days in Year
Please Note: The Collected Balance Required is an estimate provided for reference purposes only.

Current Month Multiplier: 1.00 ÷ Earnings Credit Rate ÷ (1-Reserve Adjustment Rate) ÷ Actual Days in Month × Actual Days in Year

Charge for Negative Collected Balance: Average Negative Collected Balance × Negative Collected Balance Rate × Actual Days in Month ÷ 360

Earnings Credit: Collected Balance Available for Earnings Credit Services × Earnings Credit Rate × Actual Days in Month ÷ Actual Days in Year

Average Negative Collected Balance: On a daily basis, your ending collected balance is either positive or negative. If the ending ledger balance minus any uncollected funds (float) is less than zero, then your daily ending collected balance position is negative. At the end of the month, the daily negative collected balances are combined and divided by the number of days in the statement period.

Average Positive Collected Balance: If the ending ledger balance minus any uncollected funds (float) is greater than zero, then your daily ending collected balance is positive. At the end of the month, the daily positive collected balances are combined and divided by the number of days in the statement period.
