SAVE MONEY ON YOUR HOME IMPROVEMENTS

A PROGRAM BY:
ROBERT SPRAGUE
OHIO TREASURER
WHAT IS ECO-LINK?

Homeowners can receive up to a 3% interest rate reduction on home improvement loans up to $50,000. Loan proceeds must be used for home improvement projects including remodeling, roofing, siding, heating and cooling system replacement, solar power, appliances, landscaping, and much more. These investments revitalize communities and support businesses providing home improvement products and services.

HOW DO YOU QUALIFY?

Eligible applicants MUST:

- Use loan for primary residence located in Ohio
- Own an existing house or condo. However, additional residential classifications may be eligible. (New builds may be eligible for energy efficient upgrades only)
- Receive loan approval from a participating financial institution prior to applying for ECO-Link
- Use all loan proceeds for home improvements
- Submit official estimates or receipts for the total amount of the home improvement loan

LEARN MORE AT:

HOW DOES IT WORK?

1. After the online ECO-link application is submitted and the loan officer confirms the terms of the loan, the Ohio Treasury begins the review process.

2. If all eligibility criteria are met, the application is approved and notifications are sent to alert the owner and financial institution.

3. Upon request from the financial institution, the Ohio Treasury will purchase an investment at a below market rate.

4. The financial institution uses the interest generated to offset the interest rate reduction.

HOW DO I GET STARTED?

1. Visit ohiotreasurer.gov/ECOlink for more information and to view a list of eligible financial institutions.

2. Apply for a home improvement loan at a participating financial institution.

3. After loan terms are determined, both the owner and loan officer complete a simple online application.
